TRACK ENCLOSURES WITH KWICK-SWITCH™ VALANCES

Made from Marine-grade 100% solution-dyed acrylic materials

Rust-proof snaps and UV protected clear vinyl

Installs quickly and effortlessly into DoubleTake® Track Tops with our exclusive Kwick-Track™ Rails

Alternate with ease between a variety of valance options

Exceptionally long life with superior water resistance and wear characteristics

17 vibrant colors / Color-matching Track Tops and Body Sets also available

KWICK-TRACK RAILS

DOUBLETAKE KWICK-SWITCH™ VALANCES:
Our unique Kwick-Track™ Rails are built into each Track Top, which makes the installation of our enclosures a breeze. Simply slide the enclosure into the track and install the snaps.

INTERCHANGEABLE VALANCES:

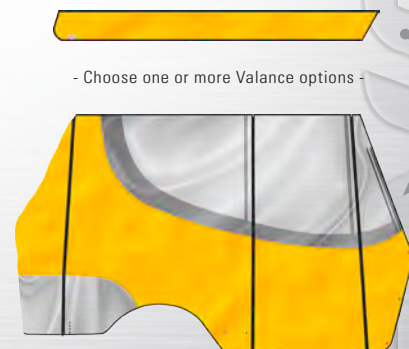

DoubleTake® pioneered the interchangeable valance by separating it from the enclosure body with our Kwick-Track™ Rail system. This allows a variety of designs to easily be switched, and allows a valance-only option as well. (No enclosure required)

REAR WINDOW ACCESS:

Rear enclosure window zips open for air flow or to access golf clubs.

EXTRA PASSENGERS OR GOLF BAGS:

Our 4-passenger back cover has been designed to accommodate passengers or golf clubs, while maintaining a tailored look.

- Choose one or more Valance options -
